Summary

I'm a passionate first-year B.Tech student majoring in Computer Science and Engineering with a strong affinity for frontend development. Proficient in HTML, CSS, JavaScript and Bootstrap, I enjoy creating user-friendly web experiences. Currently, I'm diving into the world of Python and Linux, eager to expand my skill set.

I'm driven by curiosity and a desire to solve complex problems through code. I'm open to collaboration, learning, and exploring new opportunities in the tech world.

Experience

Freelance Web Developer

Freelance

Aug 2023 - Present (3 months)

Seeking freelance web development opportunities while I complete my graduation
